# Two Planes Downed By Vietnamese Fire

By HARRY KELLY

WASHINGTON (A)-Secretary of Defense Robert S. McNamara said today U.S. Navy bombers have heavily damaged four North Vietnamese torpedo bases and wrecked a North Vietnamese oil storage depot in retaliation for attacks on two U.S. destroyers in the Gulf of Tonkin.

At a news conference, the secretary said two U.S. aircraft had been shot? down by ground fire and Herrick two had been damaged during 64 attack sorties launched from the aircraft carriers Ticonderoga and Constellation.

McNamara said approximately "25 patrol boats were damaged or destroyed."

The attack was in retaliation for an assault by three Red PT boats last Sunday against the destroyer Maddox in which one of the boats were sunk and two others damaged, and another fiercer engagement involving two U.S. craft Tuesday.

The second attack was aimed at the Maddox and the destroyer Turner Joy which had been sent to support the Maddox.

McNamara said in response to questions that "whether this Khe. (the retaliatory blow) will be all that is necessary is up to the pot at Vinh near Quang Khe

# Liquor Permit Asked As Area Development Aid

"Michigan is a resort state," says Don Leonard, chairman of the Michigan Liquor Control Commission "and this strongly affects our liquor licensing situation.'

Leonard and other members of the commission and its staff were in Escanaba for the annual public meeting on liquor control and to address U. P. liquor store managers at the House of Ludington. The meeting ends today

When Prohibition ended in 1933 Michigan enacted a liquor control act which gave the state government monopoly control of all liquor handling in Michigan. The Liquor Control Commission is in charge of the traffic, which gave more than \$35 million to the state in the first 11 months of the fiscal year. Michigan is one of 17 "monopoly" states among the 50. Neighboring Wisconsin has private businesses handle the liquor business, which Michigan conducts through its state store

When liquor control was enacted in 1933 the accent was on control of the traffic to avoid the evils of the saloon era that brought on Prohibition. License As Developer

There's still strong accent on control of liquor to minimize social and economic troubles it causes, but a liquor license is acquiring a new value which was not clearly seen when the basic liquor control act was enacted in 1933. This is the economic value of a bar in recreation business development, and even in commercial enter-

Liquor licensing is based on population, with one license to 650 population as first enacted.

the Unsinkable

"The Bill Lyons Combo"

Don S. Leonard

This has since been raised progressively to one license for 1,500 population, so that the license potential has been halved. There are many more demands for liquor licenses in Michigan than there are liquor licenses available. The Liquor Control Commission can take one away from a licensee only

for violation of the law. If the quota limit were removed today the Liquor Control Commission would probably receive applications for 100 new bar licenses tomorrow. Downstate the pressure is even greater. Many businesses like restaurants and resorts feel that they cannot operate if they do not serve liquor; that the public simply will go to places which do and avoid

Resort Licenses

The resort (part year) license was created to help ease the quota problem butt hese licenses are limited in number too and there's a long waiting list. At first there was no definition of a resort as a qualification and many bars not in resorts got them. Now the Legislature has authorized the Liquor Control Commission (over objections of Drys and licensees) to issue 10 new resort licenses a year for 5 years. They'll go only to bona fide resorts and won't be transfer-

The number is inadequate to the need, but it is a start on meeting a situation where many areas are pleading for the state to help them get a new resort. bowling alley or other facility by providing a liquor license. None of the new licenses will go to single purpose establish-

The popularity of bowling has increased the demand for more liquor licenses. While many Michigan bowling alleys have no bars, and while many persons complain about alley bars because bowling is a family type recreation - laws against bowling alley liquor sales have been proposed in the Michigan Legislature - there are 379 bowling alleys in Michigan with bars of some kind; 259 of them with Class "C" (sell anything) bars.

Bowling Bars

Sixty-one per cent of Michigan bowling alleys with bars limit consumption of drinks to the bar area. In Detroit 80 per cent limit consumption to the

There is a general, continuing tendency, said Leonard in Michigan and elsewhere to liberalize liquor control. This is evident in the efforts to authorize Sunday sale of liquor in Michigan. There were four Sunday sale bills introduced in the last session of the Legislature. All failed. The Liquor Commission counseled the committee in charge of the legislation that if it did recommend a Sunday sale law, that it be qualified with a local option referendum, so that communities could keep control.

Michigan is rather evenly divided on the wet and dry issue as it is reflected in local option status. The state has 644 day townships and 614 wet townships, and 912 cities and villages that are wet compared with 859 that are dry.

The numerical count of wet and dry areas is not a clear picture of their status, however. Some cities permit no sale of liquor by the glass - like Newberry - some townships and go so far as to ask the Anne's Church in 1911. Liquor Commission for a club license for a service club!

# Denates Blood Of Rare Type

Donating rare blood to save lives is getting to be old stuff for John Fidge of Alfred, N. D. Fidge lay calmly in the Medical Arts Center here Tuesday while a pint of I negative blood was drawn for a 16-month-old infant facing heart surgery in Muskegon, Mich.

The 44-year-old Fidge and his 31-year-old brother Gordon are among the only 10 persons in the country known to have the unusual blood type. And John's blood was the only sample which cross-matched with that of the baby

"Having the rare blood doesn't seem to make me feel any different," said Fidge.

Joan Drey, chief nurse of the Paul, Minn., Red Cross Blood Center, flew to Jamestown to draw the blood and carried it back to St. Paul in a chartered plane

It was tested in St. Paul, then flown on a commercial airliner to Muskegon for the infant's operation today.

### Controls For Liquor

The Michigan Liquor Control Commission, meeting in its annual Upper Peninsula public session at Escanaba, reported that it has no great new problems of policing-only the old ones, some of them with new

The problem of the juvenile drinker persists. It is being combatted with new technical difficulties for the youngster who tries to pretend that he is of legal age to purchase liquor. Juveniles will get different color driver licenses (a common ID card) than adults, and within 3 years all Michigan driver licenses will picture the licensee.

The last Legislature made it a misdemeanor for anyone to fib about a juvenile's age to a gin mill. It was a misdemeanor for the juvenile to try to cozen the liquor seller and now the public is made subject to the penalty. It is a tightening net that makes it more difficult for youngsters to get liquor, but they manage, of course. That's why liquor control officers say that the best control is family discipline.

There's no temptation in Michigan to discard the state monopoly system voted in 1933 when Prohibition ended. Michigan is one of 17 "monopoly" states in the Union, with the state government controlling all the manufacture, purchase, import, transportation, possession and sale of liquor.

The system is credited nationally by liquor control experts with better licensing and control than commercial enterprise systems.

When Michigan's system was created it reflected the state's desire to avoid the well known evils of the old saloon system. It was reasoned that when taverns powerful forces of Sen. Barry haven't enough legitimate customers they take illegitimate customers (children, drunks, alcoholics) so the state dismisses the imper- ism" gambit in his acceptance to attempt by regulation to assure a sufficient clientele fections as "technicalities." speech, or Percy's later bland the license quota system was introduced.

The quota base was increased from 650 population senator makes. Others insist the Percy says Goldwater aides to 750 and then to 1,500; in effect halving the number trouble runs deeper. of liquor licenses. Michigan retains the quota system for licenses, but is under great pressures to increase the number of licenses, especially of resort (part year) that he is going to be his own licenses. Dry interests and licensees opposed increases man. There is evidence to supin the number of licenses, but the Legislature has auth- port his claim-and therein lies orized the Liquor Control Commission to issue 10 new resort licenses a year for the next 5 years. The num- way ber is a spit in the ocean, but recognizes the need for constant appraisal and change in liquor control.

The liquor license has become an economic development gun. Restaurants, bowling alleys, and all kinds a traitor to Goldwater. of resorts want them; consider them an economic need. What happens then when a community can get a big Three ardent women supportinvestment in a ski resort and it is contingent upon ers of Percy emerged from his getting a bar license and the local license quota is exhaused, as it is all over Michigan?

The new resort license (non-transferrable, only for real resorts, recallable if the resort changes character) is a move in the right direction, but its numbers are inadequate to the need. The commission is mindful, however, that a new license tends to depreciate an old one; it wants to administer liquor control so as to nourish economic growth, but it doesn't want to unhinge the quota system and make bad bars of the old ones.

The general tendency in liquor control is toward liberalization of regulations, but in Michigan there are 644 dry townships and 614 wet townships. There were 4 bills introduced in the last Legislature to permit Sunday sale of liquor in Michigan. None passed. The Liquor Commission was criticized by Drys for "advocating" Sunday sale.

It didn't. What it suggested was: If, in its wisdom, the House Liquor Control Committee recommends tured. Chased by state and cisco convention. Sunday sale in the Legislature, let it be subject to local referendum. Lack of such a clause helped kill all the Sunday sale bills so far.

ORDINANCE NO. 4 TOWNSHIP OF ESCANABA

Section 1. Subject to all the terms and conditions mentioned in this ordinance, consent is hereby given to Michigan Consolidated Gas Company, a corporation organized un-der the laws of the State of Mich-igan, and to its successors and as-

dated Gas Company of a gas main within the boundaries of the Townwithin the boundaries of the Township of Escanaba on or before July 1, 1966. If such construction does not commence on or before that date this franchise shall terminate as more specifically provided in Section 6 hereof. Upon commencement of the installation of a gas main within the time specified, the Company shall proceed to complete the same as soon thereafter as reasonably practicable; provided, however, that the Company shall not be held responsible for delays due to weather or labor conditions. not be held responsible for delays due to weather or labor conditions, inability to procure necessary materials, or other causes beyond its control; and provided further, that such initial installation and all extensions shall be subject to the Main Extension provisions contained in the Company's Rules and Regulations for Gas Service as approved by the Michigan Public Service Commission.

Section 3. Michigan Consolidated Gas Company, its successors and

Gas Company, its successors and assigns, shall not unnecessarily obstruct the passage of any of the highways, streets, alleys or other public places within said Township and shall within a reasonable time after making an opening or ship and shall within a reasonable time after making an opening or excavation, repair the same and leave it in as good condition as before the opening or excavation was made. The Company, its successors and assigns, shall use due care in exercising the privileges herein contained and shall be liable to said Township for all damble to said Township for all damages and costs which may be recovered against said Township arising from the default, carlessness or negligence of the Company or its officers, agents and servants
No road, street, alley or highway shall be opened for the laying
of trunk lines or lateral mains except upon application to the High-Commissioner or way Commissioner or Township Board, or other authority having jurisdiction in the premises, stating the nature of the proposed work and the route. Upon receipt of such application, it shall be the duty of the Highway Commissioner or Township Board, or such other authority as may have jurisdiction, to issue a permit to the Company to do the work proposed.

igan Public Service Commission t the extent provided by statute, and the rates to be charged for gas and the rates to be charged for gas and the standards and conditions of service hereunder shall be as now set forth in the Company's Rate Book, M. P. S. C. No. 3 and Rate Schedules Nos. 3 through 8 forming part thereof, or as shall be hereafter validly prescribed under the orders, rules and regulations of the Michigan Public Service Commission or other authority having jurisdiction in the premises. Commission or other authority having jurisdiction in the premises.

Section 5. The words "Michigan Consolidated Gas Company" and "the Company," wherever used herein, are intended and shall be held and construed to mean and include both Michigan Consolidated Gas Company and its successors and assigns whether so expressed

Section 6. This ordinance shall Section 6. This ordinance shall take effect immediately after the date of publication thereof, which shall be within ten (10) days after the date of its adoption, and shall continue in effect for a period of thirty (30) years thereafter, subject to revocation at the will of the Township at any time during said thirty (30) year period and subject to the condition that if the Company shall fail to commence the installation of a gas main in the Township within the time provided in Section 2 hereof, then the Township within the time provided in Section 2 hereof, then this ordinance and the franchise hereby granted shall, without further action on the part of the Township, become null and void and of no further force or effect; provided, however, that when this ordinance shall become effective the Township, Clerk shall deliver

ordinance shall become effective the Township Clerk shall deliver to the Company a certified copy of the ordinance accompanied by written evidence of publication and recording thereof as required by law and that Michigan Consolidated Gas Company shall, within sixty (80) days after the date of the adoption of this ordinance, file with the Township Clerk its written acceptance of the conditions and provisions hereof.

Ironwood captured the Upper Peninsula-Northern Wisconsin Little League tournament crown in Ashland, blanking the host Ashland team 6-0 in the title game ... Bruce Baller fired a three-hitter for the mound victory and Ironwood exploded for six runs in the fifth inning after being held without a hit in the pervious frames ... Ironwood will advance to the Wisconsin finals at Wausau Aug. 7-8.

Les Smith, former Escanaban who is visiting here from San Diego with the Arnold Alstens, had unique round of golf at the Country Club this week ... Smith had all fours on the first seven holes, getting birds on the long holes and bogeys on the short ones ... He finished with a 41 ... Golfing with Smith were Roy Starrin, Claude Bell, Bill Henderson and Mike Jensen.

Escanaba's Jaycee Little League All Stars will travel to nected with the state tourna- Upper Peninsula. Iron Mountain this evening to play the consolation game of the ment LL tournament which was rained out in Ashland last Saturday .... The game, starting at 6, will be played at the Iron tourney opens Friday at 9:30 in years under his belt. The high-Mountain East diamond.

Woody's of Ishpeming successfully defended its Rhinelander Invitational softball tournament championship, defeating Bob's Pub of Marquette 5-0 in the final game.

Werner Maki, named the tourney's most valuable player for the second year in a row, flipped a two hitter, fanned 10 and walked none in the championship tilt.

Here's the picture in the Wishigan baseball league: Beaver knocked Peshtigo out of sole possession of first place with a 7-3 setback and Wallace downed Pembine 12-3 to share the top rung in the ladder ... Stephenson defeated McAllister 11-6 and now carries a 5-5 season record.

One of the leading hitters in the state American Legion baseball tournament at Menominee this weekend will be Jim Kerr, Battle Creek shortstop. .. The 5 foot 10 inch, 150 pound righthander swatted seven hits in 13 trips in Zone tournament play last week for a hefty .565 average. \* \* \*

Iron Mountain's Silver Hawk Archery Club won the team that team, and others, are not duty. championship in the fifth U.P. Archery Assn. tourney at Iron competing in the tournament. Here's his roster for the River with a total of 452 points... Iron River will host the next U.P. shoot and the season championship event will be staged at trict with the exception of Es- Trotter, Jim Berish, Jim Fitz-Iron Mountain next month.

Latest Upper Peninsula golfer to register a hole in one was Norman Ercikson of Menominee who scored his ace on the 185 yard No. 10 hole at Little River Club in Marinette In his foursome were Ed Olson, Frank Barnowski and Dr. George Maihofer.

Joe Dutelle, former Norway resident, came home on a visit and scored the third hole in one of the season at the Norway field of teams in the district State tournament activities Oak Crest course... He canned his tee shot on the 130 yard No. 8 hole, using a pitching wedge. In his foursome was Paul had submitted its roster and with a banquet of champions Lambert who had aced the same hole earlier this season.

Don Fontana of Iron Mountain earned \$3,500 for his 1,635 total in the 1964 Peterson Bowling Classic in Chicago First place prize of \$30,000 was won by Bob Thiel of Hobart, Ind., with a 1,684 score.

### Ford Mtr. Co., by J. R. Williams **UAW** Fighting Over Contracts

DETROIT (AP) - New contract negotiations between Ford Motor Co. and the United Auto Workers were to center again today, as they did Tuesday, on company complaints of alleged union abuses of the current agreement.

The company recently filed 22 pages of proposals for contract changes, but has not as yet made a counter-offer to UAW economic demands that include higher wages, larger pensions, earlier retirement and more rest breaks.

Today's session was to take up again company - proposed ammendents to tighten grievance procedures. This and union representation were discussed Tuesday.

M. M. (Mike) Cummins, Ford labor relations director, said negotiators have not yet arrived at agreement "on any of these things.

At Ford, General Motors Corp. and Chrysler Corp. current three-year contracts expire Aug. 31. And as at Ford, no agreements have been reported in any areas at the other members of the industry's Big Three. Sessions Tuesday were described as routine at Chrysler and GM. As at Ford, new sessions were scheduled at those two today.

STATE SENATOR Kent Lundgren, Republican of Menominee, left and Senator Charles McManiman, Democrat of Houghton, center, listen to testimony from Alan Argesinger, Jackpine Lodge proprietor, who was one o' 2? testifying at a senate hearing on highway signs in Manistique Monday. More than 60 persons were present. The Highway Department announced that due to varying widths of right-of-way it will begin a study of highway titles and policy decisions on signs will be made by a 4-man highway commission to be appointed by the governor in 1965. (Daily Press Photo)

# Crisis Becoming Way Of Life In Washington

has become a way of life in the tary official in the upper and Pentagon.

on American destroyers in in- dent. ternational waters off the North Viet Nam coast is only the latest in a series of alarms that have been sounding with growing frequency in almost two decades of cold war tension.

With the exception of Korea, the incidents have been Communist testing of free world determination. In one, the Cuban missile showdown, nations hovered on the brink of atomic war. Always there was the chance

that an incident and its reactions could flare into major war. And this is true of the naval clashes between the United States naval vessels and the patrol boats of North Viet Nam. Red China, powerful ally of the Vietnamese Communists, is close - and watchful.

The Pentagon has files packed tingencies. The plans have ex- the first day of insertion. isted and been constantly revised for years. They cover a description at small cost. broad spectrum of probable, ble emergencies.

ordered the close-in patrol by surface ships in the Gulf of 6 days - CASH RATE .... a contingency plan things that might evolve from the patrol.

The planners certainly were aware the destroyer patrols might draw Red reaction. They assessed the capabilities of the North Vietnamese to react, alone or in concert with their big neighbor to the north. When the destroyer patrols were started more than a year ago, a carrier was kept steaming near the mouth of the gulf, ready send her planes to help the destroyers if they encountered shooting trouble.

When the Tonkin Gulf situation moved from a contingency | CLEARANCE SALE. All kinds of situation into a sea battle, the plan went into operation. A quick radio message from the destroyer brought fighter plane help from a carrier.

In Tuesday's engagement planes were in the area above the destroyers Maddox and C. Turner Joy, on President Johnson's orders, when PT boats darted in through a storm and a three-hour battle opened.

In the opening incident Sunday, the Maddox radioed its call for air help from the carrier without coding it because of the extreme urgency of the situation This is accepted procedure in such critical moments.

Both military and civilian chiefs in Washington were informed of the attack almost before the echoes of gunfire had died away.

This is made possible under the elaborate worldwide communications system, maintained as part of the over-all command and control setup. With this system, all interested officials, from the President on down, can communicate with commanders in the field anywhere - instantly.

A "command and control" system has existed since the beginning of World War II. But with improvements in equipment and the deadly danger growing out of missile warfare perfection, it has been expanded and improved. Secretary of Defense Robert

S. McNamara uses the communications network to make his own personal, surprise tests BPS to see if everything is working.

operating echelons be known The Red patrol boat attacks constantly, including the Presi-

# New Bus Law Causing Rukus In Michigan

LANSING (AP) - Seven persons are seeking to intervene in defense of a new state law for the transporting of private and parochial school children in public school buses.

The new law, passed in the 1963 session of the legislature, is being contested by the Americar Civil Liberties Union (ACLU). It contends the law violates the U.S. Constitution's requirement for the separation of church and state.

Filing a petition to intervene Tuesday were seven members of the Michigan Federation of Citizens for Educational Freedom. They are Gerald Baas, East Bay Township, Grand Traverse County; Dougal Stevenson, Livonia; Donald Brandt. Livonia; Arthur Mulder, Byron Center; William Rasmussen, Peninsula Township, Grand Traverse County; John Monsma, Hudsonville, and Robert Larkin, Okemos.

The seven-who have a total of 19 children attending nonpublic schools - contended in their petition that if the ACLU prevailed, they would be subjected to an "unreasonable and unlawful denial of the equal protection of the laws precisely because of their religious and edu-

cational beliefs and practices." A hearing will be held on the motion Aug. 14 by Circuit Judge Sam Street Hughes.
